

MAJOR IN **BANKING AND FINANCIAL ENGINEERING** PARIS

Study Banking and Financial Engineering in one of Europe's Financial Capitals

In keeping with the realities of today's changing market landscape, ESSCA is pleased to offer a new master's program in English in Banking and Financial Engineering (BFE) for students wishing to enter the banking industry or seeking to pursue a career in high-level finance.

Internationally focused, the BFE program will be taught in Hungary and in France, and enable students to study at two of ESSCA's learning sites: Budapest to allow them to learn management fundamentals and techniques, Paris to provide them with the fundamental competencies and knowledge in finance and banking, where they can expand, hone and perfect their banking and financial engineering skills in the advanced finance and specialization modules.

As always, ESSCA's highly trained international team of researchers and professors will guide students through the BFE program, enriching it with lectures, conferences and meetings with high-level market leaders: corporate CEOs and CFOs, financial managers, traders and banking directors. Theoretical learning is consummated in the final semester by an in-company internship, where students put to work the knowledge they have gained in class, and during which they are able to wholly concentrate on their final academic thesis.

CURRICULUM

SEMESTER A (Sept-Dec)

BUDAPEST - 30 ECTS

Core courses

- Economic Intelligence
- International Monetary Governance
- Starting New Ventures

Electives

- Product and Process Management
- Cross-Cultural Management

SEMESTER D (Jan-June)

Applied Research Semester 30 ECTS

During this semester, students complete:

- A six-month in-company internship
- A master's thesis based on a concrete topic of Banking and Financial Engineering in coherence with the student's professional project and including significant empirical work. The thesis is written under regular supervision of a faculty member.

Eligibility

The programme has been designed for students from all over the world who:

- Have obtained a first degree (bachelor's) and ideally have some professional experience thanks to a first job or in-company internships
- Can provide a GMAT (Graduate Management Admissions Test) score with their application information.

For further details, please log on:
www.gmat.com/gmat/thegmat/

Candidates may also take the SHL Test via ESSCA

- Have a real international outlook, a coherent professional project and open-mindedness to people from different cultural backgrounds

Work and Career Perspectives

With specializations in both Banking and Financial Engineering, the BFE program meets the needs of future executives by developing their skills and knowledge in a highly-motivating, challenging and intense cycle of learning. These modules are designed to expose students to modern-day situations in several fields of finance and prepare them to step up to the needs and expectations of a fast paced, results based and internationally oriented career.

The BFE programme is obviously designed for individuals whose future ambition lies in fields directly or indirectly linked to banking and financial engineering:

- Corporate Bankers and Investment Bankers
- Hedge Fund Managers, Trust Fund Executives, Private Equity and Wealth Managers
- Production Planning, Personal Investment Planning, Retirement Planning, or Estate Planning Experts
- Mergers and Acquisitions Managers
- Equity Analysts
- Financial Consultants
- Stock Market Traders
