

MASTER in MANAGEMENT

MAJOR IN

CORPORATE FINANCIAL MANAGEMENT

Become a Future Powerhouse of International Corporate Finance

ESSCA offers a two year Master's which equips students with the fundamental skills for becoming managers in corporate finance. During first year, the objective of the course is to allow students to gain vital expertise in the fields of Economics and Management throughout semester A. Semester B will be devoted to the Principles of Finance in preparation for specializing in Corporate Finance during the second year. This programme's main objective in Corporate Finance is to develop students' advanced managerial competencies in international corporate finance. Taught entirely in English, its faculty is highly qualified and made up both of ESSCA research professors and corporate professionals, directors and CEOs. It intends to offer theoretical and applied knowledge directly applicable to business contexts.
